PERSONAL TRAVEL BLOG

Step 1: Planning Your Travel Blog

Before diving into code, it's essential to have a clear plan for your travel blog. Consider the following aspects:
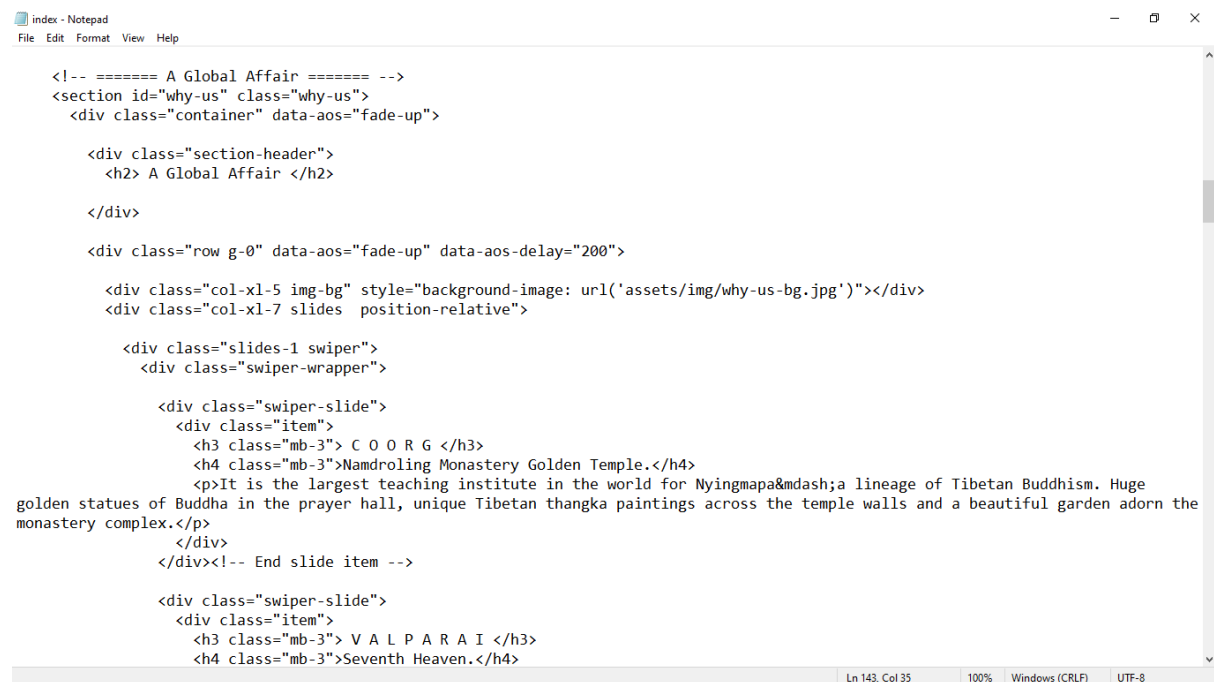

- Define your blog's niche and target audience.
- Decide on a name and domain for your blog.
- Outline the structure and main sections of your website (e.g., homepage, blog posts, about page, contact page, etc.).
- Choose a color scheme and overall design style that aligns with your blog's theme.

Step 2: Setting Up Your Development Environment

Make sure you have a code editor (such as Visual Studio Code, Sublime Text, or Notepad++) installed on your computer. You'll also need a web browser for testing your website.

Step 3: HTML Structure

Start building your website by creating the HTML structure. Here's a basic template to get you started:

```
index - Notepad
File  Edit  Format  View  Help

<!-- ======= A Global Affair ======= -->
<section id="why-us" class="why-us">
  <div class="container" data-aos="fade-up">

    <div class="section-header">
      <h2> A Global Affair </h2>

    </div>

    <div class="row g-0" data-aos="fade-up" data-aos-delay="200">

      <div class="col-xl-5 img-bg" style="background-image: url('assets/img/why-us-bg.jpg')"></div>
      <div class="col-xl-7 slides  position-relative">

        <div class="slides-1 swiper">
          <div class="swiper-wrapper">

            <div class="swiper-slide">
              <div class="item">
                <h3 class="mb-3"> C O O R G </h3>
                <h4 class="mb-3">Namdroling Monastery Golden Temple.</h4>
                <p>It is the largest teaching institute in the world for Nyingmapa&mdash;a lineage of Tibetan Buddhism. Huge
golden statues of Buddha in the prayer hall, unique Tibetan thangka paintings across the temple walls and a beautiful garden adorn the
monastery complex.</p>
              </div>
            </div><!-- End slide item -->

            <div class="swiper-slide">
              <div class="item">
                <h3 class="mb-3"> V A L P A R A I </h3>
                <h4 class="mb-3">Seventh Heaven.</h4>
```
```
                                                  Ln 143, Col 35        100%    Windows (CRLF)    UTF-8
```

Step 5: Creating Content

Now, you can start adding content to your website. Create blog posts, upload captivating photos, and write engaging travel stories. Use HTML to structure your content and add images:

<!-- ======= A Global Affair ======= -->

```html
<section id="why-us" class="why-us">

  <div class="container" data-aos="fade-up">

    <div class="section-header">

     <h2> A Global Affair </h2>

    </div>

    <div class="row g-0" data-aos="fade-up" data-aos-delay="200">

      <div class="col-xl-5 img-bg" style="background-image: url('assets/img/why-us-
bg.jpg')"></div>

      <div class="col-xl-7 slides  position-relative">

        <div class="slides-1 swiper">

          <div class="swiper-wrapper">

            <div class="swiper-slide">

             <div class="item">

               <h3 class="mb-3"> C O O R G </h3>

               <h4 class="mb-3">Namdroling Monastery Golden Temple.</h4>

                <p>It is the largest teaching institute in the world for Nyingmapa&mdash;a lineage
of Tibetan Buddhism. Huge golden statues of Buddha in the prayer hall, unique Tibetan
thangka paintings across the temple walls and a beautiful garden adorn the monastery
complex.</p>

              </div>

            </div><!-- End slide item -->

            <div class="swiper-slide">

             <div class="item">
```

```html
<h3 class="mb-3"> V A L P A R A I </h3>

<h4 class="mb-3">Seventh Heaven.</h4>

<p>Is Valparai worth visiting? Yes absolutely! The beauty of this hill station, nestled amidst the Western Ghats, is further accentuated by lush forests of teak that house tigers and wild elephants, beautiful waterfalls, temples, luxuriant tea plantations, and the yearlong cool and pleasant climate.</p>

</div>

</div><!-- End slide item -->

<div class="swiper-slide">

<div class="item">

<h3 class="mb-3"> M Y S O R E </h3>

<h4 class="mb-3">Mysore Palace</h4>

<p>The Mysore Palace, also known as the Amba Vilas Palace, is a historic and iconic palace located in the city of Mysore in the state of Karnataka, India. It is one of the most famous tourist attractions in India and is known for its stunning architecture, rich history, and cultural significance.</p>

</div>

</div><!-- End slide item -->

<div class="swiper-slide">

<div class="item">

<h3 class="mb-3">C H I K K A M A G A L U R U</h3>

<h4 class="mb-3">Western Ghats of Karnataka</h4>

<p>Chikmagalur is a beautiful hill station located in the state of Karnataka, India. It is known for its lush greenery, coffee plantations, and scenic landscapes.</p>

</div>

</div><!-- End slide item -->

</div>

<div class="swiper-pagination"></div>
```

```
        </div>

        <div class="swiper-button-prev"></div>

        <div class="swiper-button-next"></div>

      </div>

    </div>

  </div>

</section><!-- A Global Affair Section -->
```

Step 6: Testing and Refinement
Open your HTML file in a web browser to see how your website looks. Make adjustments to your HTML and CSS as needed. Ensure that your website is responsive and works well on different screen sizes.

Step 7: Hosting Your Website
To make your website accessible on the internet, you'll need a domain and hosting service. You can choose from various hosting providers, purchase a domain, and upload your HTML and CSS files to your hosting account.

Step 8: Maintenance and Updates
Regularly update your blog with new content and make improvements based on user feedback and your evolving design preferences.
